

ACE3

Disinfectant & Cleaner

**For use in Horticulture
and Agriculture**

Contains 5% Peroxyacetic Acid.

- **Sterilizes & decontaminates a wide range of surfaces**
- **Simple to use**
- **Environmentally safe**
- **Rapid results**

ACE3

ACE3 is a multi-purpose disinfectant and cleaner for use in glasshouses, warehousing, stores, farms and haulage vehicles. With its powerful formulation of 5% peroxyacetic acid, ACE3 is fast acting and highly effective ensuring all surfaces are clean and clear ready for reinstatement. ACE3 is safe for use on all glass, polycarbonate, acrylic and plastic fill glasshouses as well as typical brick, concrete, timber, steel, aluminium and painted surfaces.

INSTRUCTIONS FOR USE

Disinfection is more effective on a pre-cleaned surface. Where instructed, use a plastic measuring jug to measure the correct dosage.

For typical cleaning and disinfecting of glasshouses, buildings and vehicles:

Spray Treatments

Apply using a coarse spray head.

Pre-cleaning

Wash down to run off with 20ml per 10 litres of water.

Typical Disinfection

Dilute 80ml of ACE3 per 10 litres of water and apply as with a general cleaner. For heavier soiled areas pre-clean with 20ml of ACE3 per 10 litres of water.

Routine Disinfection

On a pre-cleaned surface apply 40ml ACE3 per 10 litre of water.

For the cleaning and disinfecting of irrigation beds in glasshouses:

Dilute 80ml of ACE3 per 10 litres of water and apply using a knapsack sprayer. For heavier soiled irrigation beds or matting with algal growth it is recommended Q10 surface cleaner is also used. Details of Q10 can be found at www.tricor.co.uk.

For the cleaning and disinfecting of irrigation lines:

Ensure all lines are isolated before application of ACE3. Dilute 80ml of ACE3 per 10 litres of water and run through lines, leave for 1 hour then flush through with clean water until lines are clear.

For the cleaning and disinfecting of pots, trays and tools:

Thoroughly wash items before disinfecting. Dilute 80ml of ACE3 per 10 litres of water and soak items in the solution for a few minutes. Drain and dry for 1 hour before re-instating into use. Do not rinse after soaking in the ACE3 solution.

The MSDS for ACE3 can be found at www.tricor.co.uk.

SAFETY INSTRUCTIONS

- CONTAINS 5% PEROXYACETIC ACID
- Keep away from combustible materials.
- Store in a cool, dry place.
- Wear suitable protective clothing and eye/face protection.

- In case of contact with skin or eyes rinse immediately with plenty of water and seek medical advice.
- Safety data sheet available for professional user on request
- Keep out of reach of children
