

HI ACE

Hard Surface Cleaner

**For the removal of
algae and lichen from
external hard surfaces**

- Suitable for glasshouses, buildings and walkways
- Powerful formulation
- Simple application
- Leaves a clean and clear surface

HI ACE

Hi-Ace is recommended for the removal of algae and lichen from a wide range of external, hard surfaces including glasshouses, roofs, walls, walkways and yards. Hi-Ace is fast acting, eradicating dirt and mold, leaving behind a clean and clear surface. Hi-Ace is safe for use on timber, masonry, brickwork, slate and stone flags.

INSTRUCTIONS FOR USE

The effects of Hi-Ace will be evident several days after application as the formulation breaks down the algae and lichen, ensure there is minimal chance of rain when applying. In most cases treated surfaces will not require rinsing after application of Hi-Ace, however where severe build up of dead material is present this can be removed by light brushing or power spray.

APPLICATION INSTRUCTIONS

For typical cleaning of hard surfaces:

- Apply Hi-Ace at a rate of 50ml per 1 litre of water.
- Mix well before application.
- Hi-Ace can be applied by brush, watering can with fine rose or using a medium or coarse surface spray.

COVERAGE

Hi-Ace	WATER	AREA TREATED
50ml	1 litre	5m ²
1 litre	20 litre	100m ²
