

# Tubex Ecostart

**Description** Extruded polypropylene tube which protects and helps establish trees.

**Application** For the protection of trees against animal browsing, herbicide spray and for the improvement of growth through a microclimate.

**Sectors** Forestry and Horticulture.

Strengthening rods; prevents shelter tearing at stake area.

Twin wall; best strength to weight ratio.

UV Stabilised: provides minimum 5 year protection.

Flared rim; minimises stem abrasion.

Laserline; shelter splits avoiding strangulation as tree grows.

Pre-fitted releasable ties; quick, easy installation and maintenance.

Translucent green; maximises light transmission for photosynthesis.
