

MESH TREE GUARD CUT PIECES AND ROLLS

Rural Tree Planting

Mesh Tree Guard Cut Pieces are perfect for wrapping around established trees or shrubs or when tree planting where rabbits, hares or deer are present and could cause damage to the plants. The Mesh Guards are manufactured from high density polyethylene, which is UV stabilised, rot proof, chemical resistant and acts as a deterrent against damage from browsing animals.

Applications

- Plastic Mesh Guards are designed to let wind and weather elements be in contact with the trees and shrubs there by creating a stronger trunk or stem, being open to the elements.
- Mesh Guards should be secured to an external stake or bamboo cane, with either cable ties or staples.

Benefits

- Open to environment there by creating a strong tree or shrub.
- Easier to wrap around established trees of shrubs under attack from pests.
- 60cm mesh pieces with protect against rabbits.
- 1.2m mesh pieces protects against Roe deer and livestock.
- Rot proof.
- Chemical Resistant.
- UV stable.
