

TUBEX ECOWRAP TREE SHELTER

Rural Tree Planting

The Ecowrap is an economical clear wrap designed to expand as the tree grows with maximum light transmission, ideal for protecting and helping establish hedges, vine and trees. Contains up to 25% recycled content.

Applications

- Designed for young broadleaf trees, the Tubex Ecowrap Tree Shelter Guard is a new tree guard with many innovative features to protect trees in an environmentally friendly manner.
- The Tubex Eco Wrap offers a extruded polypropylene overlapping wrap which protects and helps establish hedges, vines & trees.

Benefits

- The transparent design allows for plenty of light to get through which in turn makes the photosynthesis process easier.
- This product is a part of the Tubex Collection and Recycling Programme and is photodegradable thanks to its polypropylene composition which promises a minimum of three seasons of shielding.
- Twin wall, cylindrical construction for best strength to weight ratio.
- Overlap expands providing continuous protection as plant grows.
- Made from environmentally harmless polypropylene.
- UV stabilised to provide a minimum 3 years protection dependant on conditions.

Specification

- Material: Soft polypropylene.
- Heights: 0.4m, 0.6m & 0.75m.
- Diameters: 40mm.
- Nests: 4.
- Bundles: 400.
- Colour: Translucent.
- Service Life Minimum: 3 Years.
- Degradability: Photodegradable.
