

# TUBEX SHRUBSHELTER

Rural Tree Planting

The Shrubshelter has a large diameter designed for shrubs, trees and bushier plants and is made with up to 50% recycled content. These shelters protect plants from animals and herbicides by providing a micro-climate for better establishment and survival rate, whilst retaining moisture to reduce water stress and enhance drought survival.

## Applications

- Tubex Shrub shelters are a range of tree shelters with a larger diameter, designed for shrubs, trees and bushier plants when shrub and tree planting.
- Tubex Shrub shelters protect the plant from hares, rabbits and voles, as well as herbicides.

## Benefits

- UV stabilised to provide a minimum 5 years protection dependant on conditions.
- Flared rim which minimises stem abrasion.
- Twin wall, cylindrical construction for best strength to weight ratio.
- Nested for ease of transportation and storage.
- Pre-fitted releasable ties for quick installation and maintenance.
- Environmentally harmless polypropylene.
- Strengthening rods at stake area to prevent tearing of the shelter.

Voles	200mm
Rabbits	0.60m
Hares	0.75m
Roe Deer / Muntjac	1.20m

## Specifications

### Shrubshelter

- Material: Biopolymer and Oxo-bio PolypropyleneTube & Nylon Tie.
- Heights: 0.6m & 0.75m.
- Diameters: 130mm-160mm.
- Nests: 4.
- Bundles: 28.
- Ties: 2x10".
- Colour Green.
- Service Life Minimum: 5 Years.
- Degradability: Photodegradable.

### Shrubshelter Plus

- Material: Biopolymer and Oxo-bio PolypropyleneTube & Nylon Tie.
- Heights: 0.6m & 0.75m.
- Diameters: 144mm-200mm.
- Nests: 5.
- Bundles: 35.
- Ties: 2x10".
- Colour Green.
- Service Life Minimum: 5 Years.
- Degradability: Photodegradable.
