

# TUBEX STANDARD TREE SHELTER

Rural Tree Planting

The Tubex Standard Tree Shelter Guard provides an improved micro-climate for trees when tree planting, which results in better initial established and higher survival rates. This phenomenon allow for the planting of smaller tree, which are cheaper to plant and easier to source, and which ultimately lead to better tree with stronger roots.

## Applications

- Ideal for protecting growing trees from damage against rabbits, hares, livestock and deer.
- Also offers a great solution to allow for herbicide weed killer to be sprayed around the base of the tree and preventing the spray from contact with the newly establish planted tree.

## Benefits

- UV stabilised to provide a minimum 5 years protection dependant on conditions.
- Flared rim which minimises stem abrasion.
- Twin wall, cylindrical construction for best strength to weight ratio.
- Nested for ease of transportation and storage.
- Pre-fitted releaseable ties for quick installation and maintenance.
- Environmentally harmless polypropylene.
- Strengthening rods at stake area to prevent tearing of the shelter.
- Laser-line designed to split to avoid strangulation as the plant grows.

## Specifications

### Standard

- Material: Polypropylene Tube.
- Heights: 0.6m, 0.75m & 1.2m.
- Diameters: 73mm-105mm.
- Nests: 5.
- Bundles: 100.
- Ties: 1x9" - 0.6 & 2x9" - 0.75, 1.2.
- Colour: Green.
- Service Life Minimum: 5 Years.

### Standard Plus

- Material: Polypropylene Tube.
- Heights: 1.2m, 1.5m & 1.8m.
- Diameters: 80mm-120mm.
- Nests: 5.
- Bundles: 60.
- Ties: 2x10".
- Colour: Light green.
- Service Life Minimum: 5 Years.

Rabbits	0.60m
Hares	0.75m
Muntjac Deer	1.20m
Fallow Deer	1.50m
Red Deer	1.80m
